Thompson's Bank Note Reporter has the following cau-"We give the following fac simile from Day's Bank Not

'Macomb County, Bank of, Mt. Clements. Payable at 28 Wall-street at 2 a 24 per cent. discount.'

28 Wall-street was the head quarters of the Globe Bank swindlers, and Day's List quoted it in the same way that this Michigan concern is quoted."

We know nothing about this concern, but it certainly ha suspicious appearance. A resuscitated Michigan wild-cat Bank promising to redeem in New-York at 2 per cent. really requires some better endorsement than any Bank Note List. At any rate, the safest course for our readers in all parts of the country, will be to let them alone.

"Money matters in Philadelphia remain without con-derable change. Our currency here, as stated in our last siderable change. Our currency here, as stated in our last, sexcellent. We have plenty of specie and of specie-paying bank notes. It is not so in the interior. There, as our randers are aware, the Banks have not yet resumed specie payments, and the Relief notes form a large portion of the dreulation. In some cases, we are told, this description of carrency is cut up into pieces in order to make change. There may be, and doubtless are, considerable quantities aspecie, in old stockings, trunks, and other secret places of sepont; but the fact that it is scarce, and that the notes of the Pennsylvania suspended Banks are at considerable security in the city, prevents coin from circulating as it atherwise would. In evidence of the condition of affairs in the interior, we muex one or two extracts from letters received by us. On

Josiah Barber .- The defendant was surety for Barber & Savage of Utica, who agreed to send all the produce possible to defendants, and draw upon it, allowing 21 per cent commission. They overdrew to the amount of \$4,000. On rendering account of sales, &c. Messrs. Spencer charged 21 per cent on this sum, and the plea of usury is set up. The ary gave a verdict for plaintiff in amount claimed-\$3,500. Superior Court .- Jeremiah Pote vs. North

River Ins. Co .- The grocery and dwelling house of plainiff caught fire from the adjoining building on the night of 25th Feb. last, and was partly destroyed. Mr. P. was insured \$1,200, and claims to have lost \$850; but the amount is disputed, and action is brought. The night was stormy and the house took fire twice, causing the property not burnt to be removed into the street and greatly injured. The case is still on. Joseph Outwell vs. Robert Douglass .- Action to recover

amount of loss on a contract to make \$1,125 worth of mante. pieces for some buildings in Sullivan-street. The defendant refused to take them, and as they were adapted to the particular premises, great sacrifice took place in the subse quent sales. Verdict for plaintiff, \$770. Court of Sessions .- Before the Recorder and

Judge Lynch. The Court imposed fines of \$25 each on two petit jurors for non attendance to serve.

PETIT LARCENY .- Sarah Gale, a colored girl, was trie for stealing: Not guilty.

MISDEMEANOR.-Henry Allen was put upon his trial for a nisdemeanor, charged with a violation of the Pilot law, in having, on the 14th August last, piloted the brig Hazard to sea from this port by the way of Sandy Hook, he not being one of the licensed pilots of this port at the time. It was proved that the accused went on board the brig, and went down outside of the bar at Sandy Hook in her; and at the usual place of pilots being taken off he called to a New-Jer sey pilot boat to take him off, which was refused; and he was afterward taken off in a boat and placed on another vessel. It was proved by Capt. Clark, one of the Commi sioners of Pilotage, that the accused was not a licensed pilot, and that he confessed he had been on board the vessel and was sorry for it; that the accused came to the Conissioners for license as a pilot, and was asked how he could expect to be licensed when a complaint for violation of the law was hanging over his head. It was also proved that he had piloted another vessel out beside the Hazard. It wa-not proved that the accused gave any order on board the off the Hook as a signal to be taken off. The Recorder gave a fair and impartial charge to the jury, who found the

defendant guilty.
INDICTMENT OF COL. WEEE.—The Grand Jury came into Court with a number of bills, among which was one against Col. James Watson Welsb, on a charge of felony, in leaving the State for the purpose of giving or receiving a challenge to fight a duel-the former indictment baving been defective, as has been previously published, inasmuch as it did not aver that the de endant did either give or re ceive a challenge, and therefore had not committed any offence against the laws of this State. The present bil charges that Col. Webb did receive a challenge, and covers the whole ground. Col. Webb appeared, and gave bail in 10,000 to answer to the charge.

The Court then adjourned to Wednesday, 11 A. M. Special Sessions .- Before the Recorder, and

Aldermen Lee and West. Several persons were tried and convicted for stealing, as ault and battery, &c., and several others accused of petit arceny and assault and battery were discharged for wan fevidence; and the Court adjourned to Friday, 9 A. M.

CORONER'S OFFICE--KILLED BY AN OMNIBUS The Coroner held an inquest this morning at the Ain House in the Park, on the body of James Veitch, a native of Scotland, aged 56, a carpenter by trade, lately residing it 18th street. The deceased was occasionally intemperate and on Monday evening a little before 8 o'clock, was seen much intoxicated by a watchman in 4th street near Christopher. Not long after, as one of the Broadway stages, driven by a man named Davenport, was passing along 4th street near Amos, the deceased reeled off the side-walk into the street, and suddenly fell head foremost between the fore and hind wheels, and although the driver checked the horses at soon as possible, the hinder wheel passed over he head, breaking his jaw-bone and otherwise tatally injuring him. He was taken in the stage to the 3d District watch house, where he soon after died. Verdict, that we came to his death by being accidentally run over by an omnibus.

The application of these plates always restoring heat, perspiration, and sensibility, they are very useful in many affections where perspiration is to be re-established, such as tetters, scrofula, swellings, erysipelas, inflammatory diseases, abecess in the seginning, paralysis in the beginning also, &c.

Persons whise extremities are cold, will also find in them a sure remedy; by applying them to their feet they will soon feel heat and perspiration returning, and their blood circulating with more regularity.

To Read the following Remarkable Cure performed by

BRISTOL'S SARSAPARILLA NEW-YORK, Oct. 29, 1842 Mr. C. C. Bristol-Sir: The motive that prompts me to address these lines to you, arises from a conviction paramount to that of mere praise of your valuable Sarsaparilla, for if that was my desire I should fail in the attempt, for I feel as though it would require a more powerful pen than justice to the high claims of so valuable a medicine as Bristol's Sarsaparilla. It is the obligation I owe as one of the vast family of man

to those, like myself, whose misfortune it has been to be afflicted as I have been for several years past, that induces me, without solicitation, to make known to the world what has been an effectual remedy when and where the ope of a cure was almost extinct.

I had been informed that you were to visit this city this

I had been informed that you were to visit this city this fall, when I expected to have the pleasure of stating to you what your Sarsaparilla has done for me, but in this I was disappointed, you having left the city before I knew it; I have therefore taken this method to inform you, and through you, all who may desire to know what my afflictions were and also what has proved an antidote to the same.

I was attacked with Scrofula in a very alarming form about five years since, which spread rapidly throughout my head, face and throat, internal and external; there were several holes in the roof of my month and shout the value.

several holes in the roof of my mouth and about the palate, which was nearly destroyed—my speech and hearing so much affected as to leave but little hope that those seases would ever return to me again as they now are. One of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet the same fate. My nerves were dreadfully affected so as to deprive me

of rest or sleep that was any thing like natural, but as one frenzied I passed my sleepless nights and wearisome days. My lower extremities were deathly cold and inanimate.— My feet were greatly extended in size from what was called Dropsy, and in addition to this, for many years I was affirsted with Piles in their most severe and distressing form, which is now removed, together with most of my great affictions, through the use of your Sarsaparilla alone, after having the best medical treatment the city afforded. I am now nearly well—my face has been saved, my mouth and throat healed, my speech and hearing restored, my sight improved, which was very doubtful, my sleep become

natural and my appetite good; in a word, I am a different person in feeling and appearance, and there remains not a joubt but that Bristol's Sarsaparilla will effectually accom-plish a thorough and lasting cure of all my afflictions. I am at a loss for language and terms strong enough to speak of your Sarsaparilla as it deserves. It has me every thing—to it I owe the preservation of my life un-der the direction of a wise Providence, and were I capable I would proclaim to all the world what Bristol's Sarsaparilla has done for me. It will afford me pleasure at any time to informany person who may desire to know any thing I know of Bristol Sarsaparilla.

Yours respectfully, OPHELIA GORDON,

No. B. I called at the office of the Sun paper this after noon and requested the publication of the above letter for one week, and was refused by the person in charge of the office, who stated that the letter could not be published in the Sun, as others had the preference in such advertise ments. I enquired the cause of so strange treatment, I have ing been a subscriber for the Sun from the first number to the present time; believing, as I did, that I was entitled to the same privilege with others in giving publicity to that which I considered to be my dutyto the community, as well as of great importance to the afflicted, that they know what to apply as a safe and sure remedy. B might told that my letter could not go in the Sun at any rate. I was also told that if I would wait three months they might put it in the Sun for me. I then left the office.

OPHELIA GORDON.

CAUTION -As the fame of this wonderful medicine ex tends, numerous preparations are springing up to reap a part of its reputation. The afflicted, therefore, should be careful, if they wish the true article, to ask for Bristol's, and see that the written signature of C. C. Bristol is across the cork of the bottle. LUNGS AND THROAT AFFECTIONS,-INHALING TUBE r expanding the Chest and enlarging the Pul-

Muscles.

While public attention is constantly directed to a great variety of syrups, candies, &c. &c., for the cure of Pulmonary Consumption, Mr. Howe is desirous to make known that he has for sale at his dwelling, No. 209 Grundstreet, third door West of the Bonery, the Inhaling Tube for expanding the chest and enlarging the lungs, which was invented by F. H. Ramadge, M. D., of the London Lung Infirmary, for the prevention and cure of this disease, which will accomplish more, he sincerely believes, than all the remedies in use. Mr. Howe came under the care of Dr. R. in 1838, and by the use of the Tube his life has been prolonged. Upon his return home he introduced this method of treating Consumption in this country, which has been embraced by numerous medical men and others in New-Muscles. embraced by numerous medical mes and others in New Vork, Philadelphia, Boston, and many other parts of the United States, as well as in Canada and the West Indies. Mr. H. has republished Dr. Ramadge's work on Consumption, which may also be had at his dwelling. The book should be in the hands of every Coasumptive. Mr. H. has published a pamphlet giving explanations of this practice for grantings distribution.
